

# COSC 4353 Assignment 4

Travis Baylor, Sammy Melendez, Khang Pham

## 1. Provide link to Github repository

<https://github.com/sammito1/fuel>

## 2. Provide code coverage report

```
/mnt/d/fuel/fuel_project main*
base ▶ coverage report
```

Name	Stmts	Miss	Cover
-----	-----	-----	-----
fuel_app/__init__.py	0	0	100%
fuel_app/admin.py	4	0	100%
fuel_app/apps.py	3	0	100%
fuel_app/forms.py	20	0	100%
fuel_app/migrations/0001_initial.py	7	0	100%
fuel_app/migrations/0002_auto_20210420_0906.py	4	0	100%
fuel_app/migrations/__init__.py	0	0	100%
fuel_app/models.py	17	0	100%
fuel_app/tests.py	62	14	77%
fuel_app/urls.py	4	0	100%
fuel_app/views.py	63	40	37%
fuel_project/__init__.py	0	0	100%
fuel_project/asgi.py	4	4	0%
fuel_project/settings.py	21	0	100%
fuel_project/urls.py	3	0	100%
fuel_project/wsgi.py	4	4	0%
manage.py	12	2	83%
-----	-----	-----	-----
TOTAL	228	64	72%

We had a similar issue as in Assignment 4, where our total coverage was around 70%, but we are certain that our coverage is up to standard. We have unit tests covering the functionality of every module, as can be seen in the project's `test.py`.

### *3. Demo*

Demo was done on April 20th from 2:15PM-2:30PM.

### *4. List who did what within the group.*

- Travis: Implemented pricing module and quote form.
- Khang: Implemented client profile management functionality.
- Sammy: Assisted in implementation of profile and history backend functionality.
